

SHARED INVESTMENT. SHARED SUCCESS.

WHAT WE DO

ReMAP is a \$25M innovation accelerator with global reach. Investments in Canadian innovations are made possible through the Government of Canada's Business-Led Networks of Centres of Excellence Program (BL-NCE) and matching funding from industry leaders. We enable our partners' competitive advantage through hardware

optimization, high-reliability electronics, and smart manufacturing.

ReMAP leverages the Canadian supply chain to develop global leadership and create value for an abundant future. As new products are launched at an exponential rate, the role of ReMAP is to accelerate the

commercialization of innovations developed in Canada for the global market.

Using Smart Manufacturing solutions, Canadian manufacturers will increase performance & productivity and gain competitive advantage.

NETWORK PRIORITIES

PRODUCT ENABLEMENT ECOSYSTEM

GLOBAL COMMERCIALIZATION

New Materials **Optics/ Photonics** **Energy/ Storage**

46 LABS & MANUFACTURING LINES

18 PROJECTS

LATERAL INNOVATION

Aerospace **Telecom (ICT)**

Defense **Healthtech**

Industrial **Automotive**

Cleantech

THE POWER OF AN ECOSYSTEM

DIGITAL TRANSFORMATION OF CANADA'S MANUFACTURING ECOSYSTEM

Smart Manufacturing

ACCELERATOR LEVERAGING THE CANADIAN SUPPLY CHAIN

Product Realization

44 Partners

46 Labs & Factories

ROBUST IP STRATEGY & INNOVATION INFRASTRUCTURE

Accelerating Commercialization

Valley of Death

Research Development Manufacturing

NETWORK PERFORMANCE

	PROJECTED BY YEAR 5	ACHIEVED BY YEAR 4
Investment	\$15.2M	\$19.2M
Revenues/Bookings	\$100M	\$156M
Cost Reduction	\$10M	\$10M
Jobs Created / Maintained	550	300
Supporting / Infrastructure Jobs * 16 Multiplier	4000	4,800
Industry Leaders	60+	433
Partners	25	44
Mentoring Hours	10,000	7435
